Sketches

Description:

The side bar is static and only the main content area will scroll. The content of the side bar consists of an image, my name, a quote, the navigation links, and links to contact me.

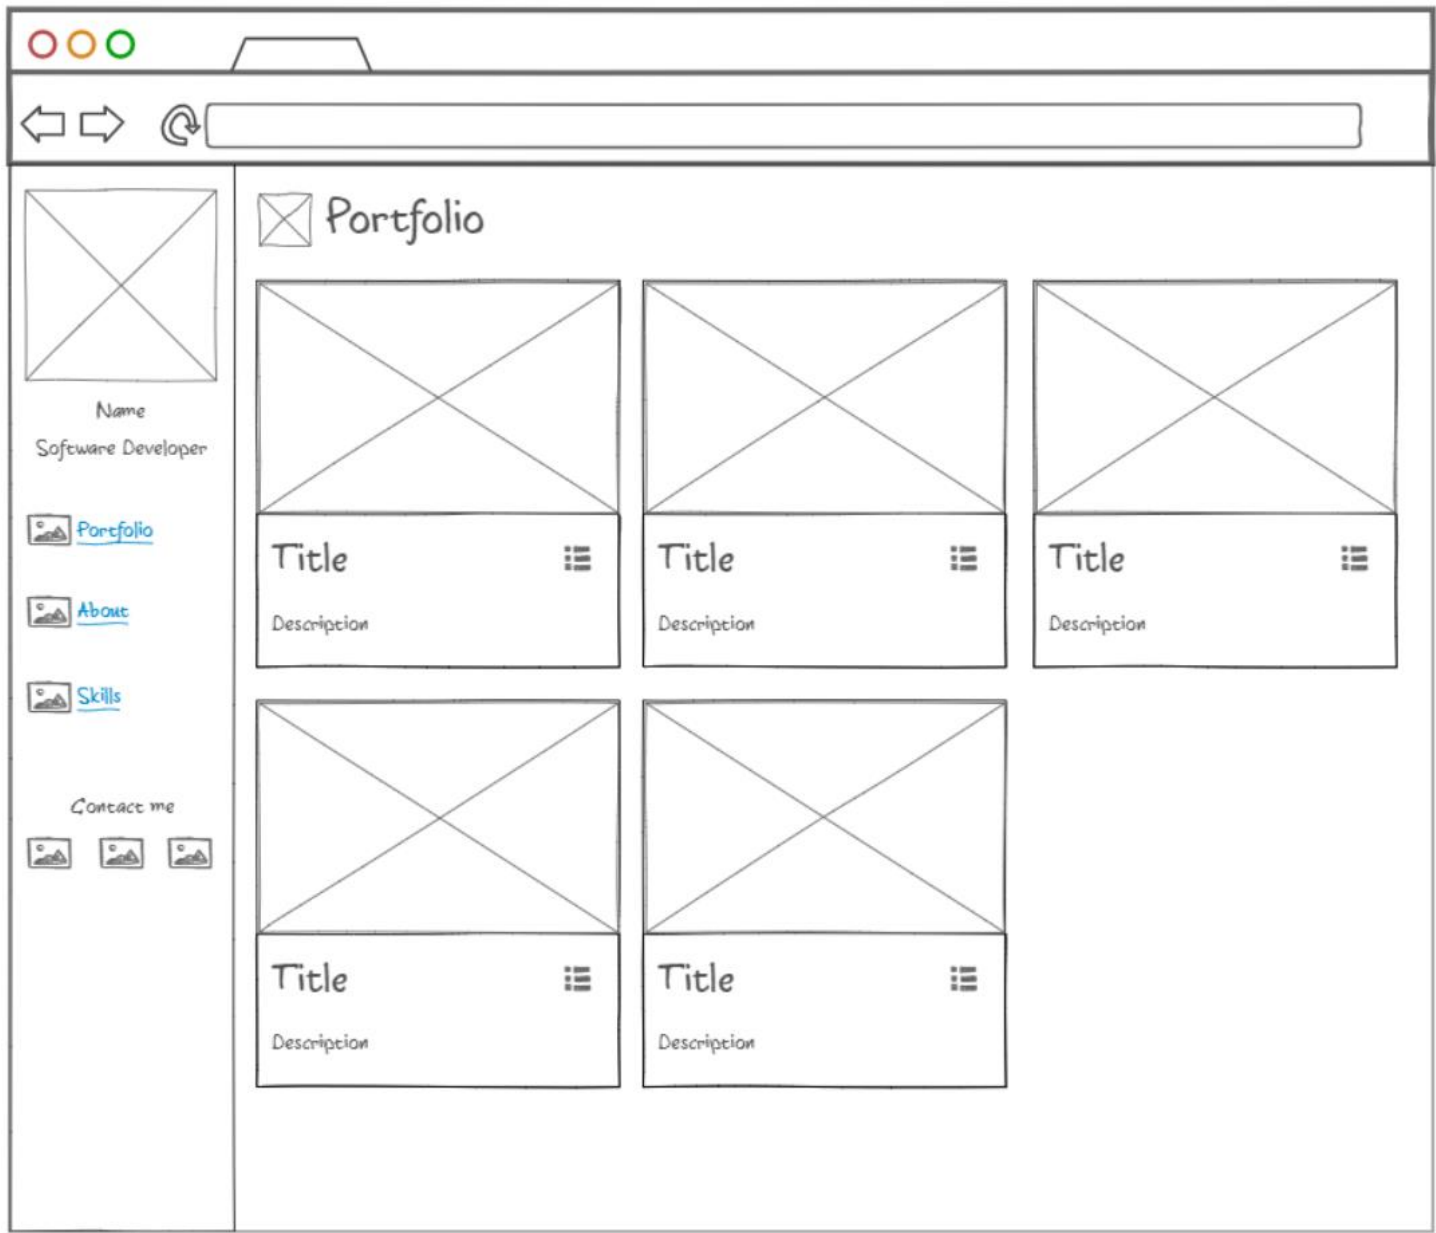

This is the main portfolio page. Each project in the portfolio is represented by its own card. The card consists of an image representing the project, a title and brief description. A vertical ellipsis button will allow the user to open more information about the project.

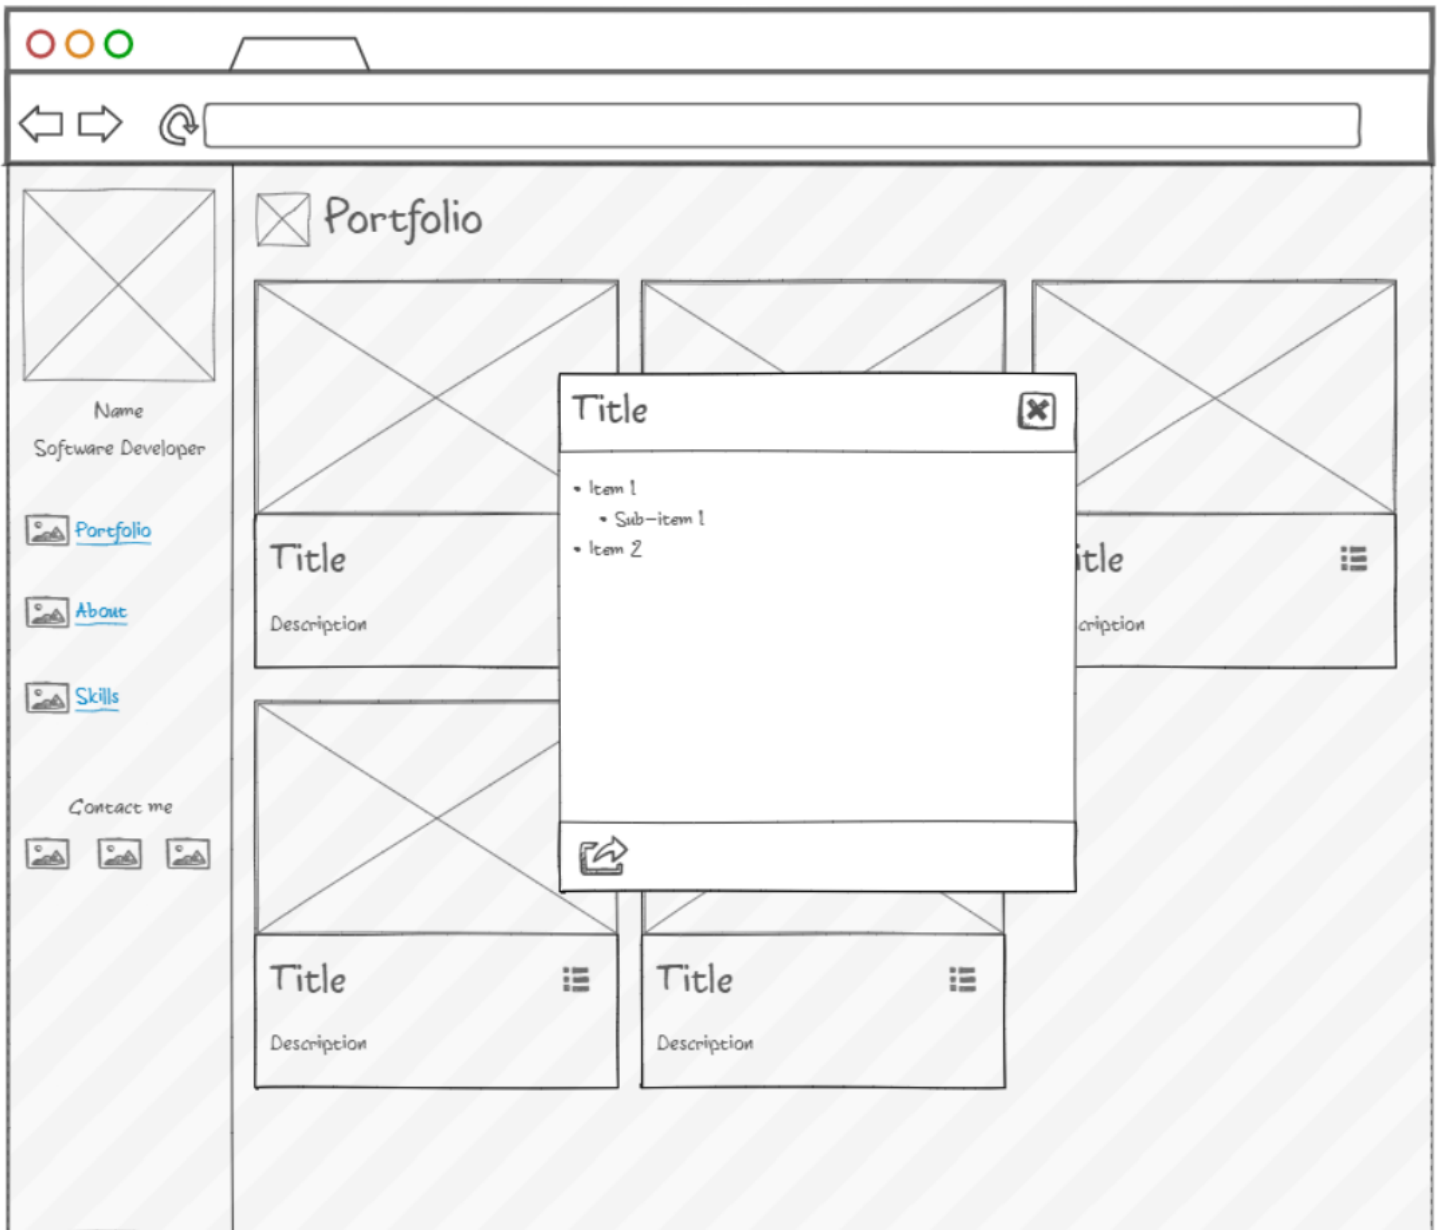

Description

When the user clicks the vertical ellipsis button on the project, a modal div will be used to display more information about the project. This will include technologies used and other facts about the project. A link to the web site and or the GitHub repository will also be included.
